# Sofa So Good

An elegant new bath design from **Meneghello Paoelli**

**Prolific** Italian design duo Sandro Meneghello and Marco Paoelli have brought the comfort of the living room into the bathroom with their Sofa Bath design for Glass 1989.

Made from white gloss MineraLite with a wooden frame, the designers say that their new creation represents a stylish and original invitation to rediscover the bath, specially contoured to make it particularly appealing for increasingly open and combined spaces.

The bath is fitted with a pop-up drain in polished chrome.
